1.1. These terms of sale and delivery shall govern all relations between Oase Outdoors ApS (hereinafter called Oase) and the Buyer unless otherwise agreed in writing. Oase shall not consider itself bound by any deviations from these terms of sale and delivery, and the said terms shall always unless otherwise agreed in writing take precedence over any of the Buyer's trade terms.

1.2. These terms of sale and delivery shall take precedence over any non-mandatory provisions in national and international legislation including but not limited to The Danish International Sale of Goods Act (Act no 733 of 7 December 1989) and The Danish Sale of Goods Act.

1.3 These terms of sale and delivery are available in Danish and English.

2. QUOTATIONS AND PRICES

2.1. All quotations are subject to the goods being unsold. Unless otherwise agreed in writing, all quotations shall be valid for 14 days after which period they shall be considered to have lapsed.

2.2. All prices are exclusive of freight, VAT and other taxes. The prices can be seen from Oase's price list in force on the date of ordering or from the order confirmation forwarded. Prices are quoted subject to price changes following changes in custom duties and taxes and subject to printing errors in price lists, etc.

2.3. Unless otherwise agreed in writing Oase shall always be entitled to change the prices quoted in price lists and quotations without notice.

2.4. Oase reserves the rights to increase the prices on orders if these price adjustments are a consequence of external increases in expenses for Oase, including (but not limited to) custom duties and other taxes, changes in exchange rates and prices for raw materials, etc.

3. PAYMENT

3.1. On the condition that a satisfactory credit rating can be obtained the terms of payment are 30 days net from invoice date unless otherwise stated in the quotation, order confirmation or invoice.

3.2. In the event of the Buyer not settling his invoice before the due date, interest shall be payable at the rate of 1.5 percent per month from the due date until the due amount with interest has been paid in full. The due date shall be calculated from the date of invoice or in the event of the time of delivery deviating substantially herefrom from the time when delivery could reasonably have been expected to take place based on normal transit times. Delayed delivery shall not entitle the Buyer to a credit time extension.

3.3. When making part deliveries, Oase shall be entitled to issue part invoices.

3.4. In the event of the Buyer not settling his invoice before the due date or the preconditions for the credit agreed upon change materially, Oase shall be entitled to withhold all further deliveries to the Buyer whether the deliveries are interconnected or not.

3.5. In the event of the Buyer not settling his invoice before the due date, any discounts granted on the invoice amount shall be forfeited.

3.6. The Buyer shall not be entitled to set off against the purchase sum any claims that he may have against Oase as a result of other legal relationships, and the Buyer shall not be entitled to withhold payment either in full or in part because of complaints or counterclaims in respect of the delivery concerned or previous deliveries.

3.7. Oase shall after the formation of contract always be entitled to demand adequate security for the timely payment of the purchase sum.

3.8. In the event of the Buyer's financial situation changing thereby causing the Buyer's credit rating to deteriorate to such an extent that Oase is justified in fearing that the Buyer may not be able to settle the outstanding account with Oase, Oase reserves the right to demand that any outstanding debts be paid immediately whether or not they are due either in full or in part.

4. SAMPLES, PRODUCT DESCRIPTIONS AND SPECIFICATIONS

4.1. Samples only demonstrate colour, size and quality in general, and Oase shall therefore not be liable for any deviations herefrom unless such deviations are material and of such an extent that the Buyer could not reasonably have foreseen them on the basis of the samples shown.

4.2. Product descriptions and samples notwithstanding, Oase shall be entitled to change or modify specifications or materials provided such changes or modifications do not affect product properties or quality.

4.3. All sizes, dimensions, weights, volumes and other indications used by Oase in catalogues, price lists, web pages and the like are approximate and

shall not be binding on Oase unless quotation, order confirmation or other written agreements refer directly hereto.

4.4. Any samples, photographs, product descriptions, etc., handed over to the Buyer either before or after the formation of contract shall be the property of Oase and shall not be copied, reproduced or in any other way disclosed to competing enterprises without Oase's written acceptance.

5. CANCELLATION OR ALTERATION OF ORDER

5.1. Oase does not normally accept cancellations or alterations of orders placed.

5.2. In the event of Oase opting to accept the cancellation or alteration of an order despite clause 5.1 of these terms of sale and delivery, the Buyer shall reimburse Oase for any expenses incurred in connection herewith.

5.3. Any cancellations or alterations shall be agreed upon in writing and shall never be possible later than eight whole work days before the latest time of dispatch to be observed in order for the goods to be delivered at the time agreed upon.

6. DELIVERY

6.1. The terms of delivery can be seen from our price list or the forwarded order confirmation.

6.2. Deliveries are subject to the goods being unsold and not having been deleted from our product range.

6.3. Unless otherwise explicitly agreed in writing, the stated time of delivery shall be considered as being an estimate for Oase. Oase reserves the right to make part deliveries.

6.4. All our delivery terms are made in accordance to INCOTERMS 2020

6.5. Oase does not assume any liability for any nondeliveries or delays as a consequence of force majeure and other unforeseeable delivery problems including delay caused by circumstances beyond Oase's control such as unusual weather, labour conflicts, public mandatory and prohibitory injunctions as well as all delays attributable to Oase's carrier, sub-supplier or other third parties.

6.6. In the event of an agreement having been made to deliver the goods to the Buyer's address or to another place as indicated by the Buyer, the goods shall be delivered as close as possible to the place of delivery agreed upon as the driver deems it safe to do in a lorry without causing any damage to the vehicle or the surroundings.

6.7. In the event of any special vehicles being required in order to deliver the goods (cf. clause 6.5), this shall be agreed upon separately when placing the order, and any additional expenses incurred in connection with the special delivery shall be charged to the Buyer's account.

7. PASSING OF RISK

7.1. The risk shall pass to the Buyer when the goods are delivered to the place agreed upon and in accordance with the terms of delivery agreed upon. In the event of no terms of delivery having been agreed upon in writing, the risk shall pass to the Buyer when the goods are placed at the Buyer's disposal at his address or delivered to a further specified place of delivery without the goods having been unloaded. The passing of the risk does not change the reservation of title, cf. clause 10.

8. DUTY OF INSPECTION, COMPLAINT AND GUARANTEE

8.1. The Buyer shall immediately upon receipt and before starting to use the goods inspect the delivered goods with a view to ensuring that they are undamaged and without any defects and that they have been supplied in the number indicated on the delivery note.

8.2. In the event of any damage or defects being ascertained upon receipt, the Buyer shall make the proper reservations on the consignment note when acknowledging receipt and submit any claims against Oase immediately and not later than four days after receipt. Otherwise, Oase reserves the right to reject any such claims. In the event of complaints of other defects which were not immediately ascertainable or could not be ascertained upon receipt, complaints shall be lodged immediately at the point in time when the Buyer should have discovered the defect and not later than one year after delivery.

8.3. Oase shall be entitled at its own discretion to either exchange the defective goods for new flawless ones, to alter/repair the goods or in any other way remedy the defect, including exchanging/forwarding spare parts for the goods.

8.4. We only accept return of defective goods if pre-approved by Oase and only if sufficient documentation through completed "Oase claim form" is included to each item. Due to health and safety regulations we require all

returned products to be clean, dry and hygienic for inspection and repair.

8.5. When returning goods which are subject to a complaint, such goods shall unless otherwise agreed always be forwarded carriage paid.

8.6. After the Buyer has resold the goods to any third party, all complaints shall be resolved solely between these two parties, and Oase reserves the right to reject all third-party complaints and pass them on to the Buyer. In the event of the Buyer being of the opinion that the complaint should be set up against Oase, such complaint shall be dealt with in accordance with the guidelines outlined above.

9. RETURNED GOODS

9.1. With the exception of goods returned in pursuance of clause 8 of these terms of sale and delivery goods are not taken back.

9.2. In the event of Oase agreeing to take back goods despite clause 9.1, the goods must be unused, in flawless condition and in original and unbroken packaging. Goods approved for return shall be credited with the full amount less 15 per cent for covering return expenses and Oase's sales costs.

10. RETENTION OF TITLE

10.1. Oase shall retain title to and ownership of the goods until it has received payment in full in cash or cleared funds of: (a) all sums due for the goods supplied to the Buyer under a particular order; and (b) all other sums due from the Buyer to Oase under any other order.

If payments received from the Buyer are not stated to refer to a particular invoice Oase may appropriate such payments to any outstanding invoice.

10.2. Until payment of the purchase price in full:

(a) the Buyer shall be the bailee of the goods for Oase and the goods shall be stored separately from any goods which belong to the Buyer or any third party and shall be clearly marked and readily identifiable as being Oase's property; and (b) the Buyer shall not permit the goods to be charged or encumbered in any way whether by operation of law or otherwise.

10.3. The Buyer grants to Oase an irrevocable licence at any time to enter on any premises owned or controlled by the Buyer to inspect (or, where the Buyer's right to possession of the goods has terminated, to remove and recover) any goods located there to which Oase retains title under this paragraph 10.

10.4. Oase hereby licences the Buyer to sell the goods to which title is retained by Oase (or any part of them) but only if sold in the ordinary course of business and at market value.

The Buyer shall act as principal and not as Oase's agent in any such sale.

10.5. If the Buyer fails to make any payment to Oase when due, or commits any other material breach of these terms, compounds with its creditors, executes an assignment for the benefit of its creditors, has a bankruptcy order made against it or, being a company, enters into voluntary or compulsory liquidation or has an administrator or administrative receiver or receiver appointed over all or part of its assets or takes or suffers any similar action in consequence of debt or becomes insolvent or Oase has reasonable cause to believe that any of these events is likely to occur, the Buyer's right to possession of the goods shall terminate immediately and Oase shall have the right, without prejudice to any other remedies: (a) to enter without prior notice any premises where goods owned by it may be, and to repossess and dispose of any goods owned by it so as to discharge any sums owed to it under the contract; (b) to require the Buyer not to resell or part with possession of any goods owned by Oase until the Buyer has paid in full all sums owed by it to Oase under the Contract or (where paragraph 10.1(b) applies) under any other contract between the Buyer and Oase; and (c) to withhold delivery of any undelivered goods and stop any goods in transit to the Buyer and recover them.

11. PRODUCT LIABILITY

11.1. The subsequent provisions regarding product liability shall take precedence over all statutory provisions governing the area concerned unless such provisions are mandatory.

11.2. Oase shall not be liable for any business property damage in respect of property or chattels personal belonging to the Buyer or any third party that occur while the goods are in the Buyer's possession.

11.3. To the extent that Oase is held liable for product damage vis-à-vis third parties, the Buyer shall indemnify Oase for any liability assigned to Oase that extends beyond Oase's liability in pursuance of the provisions outlined above.

11.4. The Buyer shall be obliged to let himself be sued before the same

court of law/arbitration tribunal that hears claims for damages against Oase set up by third parties in respect of goods supplied by Oase to third parties via the Buyer.

11.5. Relations between Oase and the Buyer shall always be settled as outlined in clause 14 of these terms of sale and delivery.

11.6. Oase shall in no circumstances be liable for any operating losses, loss of time, loss of income or consequential loss.

12. FORCE MAJEURE

12.1. Oase shall not be considered as being in breach of its obligations towards the Buyer if such breach is caused by circumstances beyond Oase's control including but not limited to unusual weather, labour conflicts, public mandatory and prohibitory injunctions, insufficient delivery, etc., as such events are considered force majeure.

12.2. Force majeure events occurring at sub-suppliers or carriers engaged by Oase shall constitute the same discharge of liability in the relationship between the Buyer and Oase as if the force majeure event had occurred at Oase.

13. INTELLECTUAL PROPERTY

13.1. The Buyer acquires no rights in the form of license, patent, copyright, trademark or other intellectual rights associated with Oase products.

14. COPYRIGHTS

14.1. All marketing material prepared by Oase is marked with © "Year of publication" Oase Outdoors ApS and is thus protected by Danish and international copyright legislation. All copyright marked material belongs to Oase and other parties shall only be entitled to use this material in connection with the marketing of products from Oase. It shall not be allowed to edit, format or otherwise manipulate the material, nor to show only parts of any given material.

14.2. The Buyer shall be responsible for complying with the current marketing legislation applying to the individual markets on which Oase products are promoted.

14.3. If in doubt as to the use of Oase marketing material and trademarks, please contact the Marketing Department in Give, Denmark.

15. GENERAL LIABILITY

15.1. Oase shall under no circumstances accept any liability or claims for damages in respect of operating losses, loss of time, loss of income or consequential loss irrespective of the cause hereof, including non-delivery, defective goods, etc.

16. GOVERNING LAW AND JURISDICTION

16.1. These terms of sale and all matters (including, without limitation, any contractual or non-contractual obligation) arising out of or in connection with them shall be governed by and constructed in accordance with Danish law. However, if the Buyer has his place of business in the United Kingdom English law shall apply instead of Danish law.

16.2. The parties irrevocably submit to the jurisdiction of the Danish courts to settle any dispute or claim arising out of or in connection with these terms (including non-contractual disputes or claims) save that Oase may bring proceedings in any court of competent jurisdiction. However, if the Buyer has his place of business in the United Kingdom the parties instead of the Danish courts submit to the English courts.

16.3. If any provision of these terms is found by any court or other authority of competent jurisdiction to be illegal, invalid or unenforceable, that provision or part-provision shall, to the extent required, be deemed not to form part of these terms, but shall not affect the legality validity or enforceability of any other provision of these terms in that jurisdiction or the legality, validity or enforceability in other jurisdictions of that or any other provision of these terms.
